<b>NATIONAL including inserts*</b>	785,938	234,424	98,901	45,295	207,463	6,402	592,485	503,770	72.3	74.5	75.4

\* Consumption includes newspaper inserts such as magazines and TV guides which are printed on newsprint or improved newsprint but only includes newsprint, or improved newsprint, used for newspaper manufacture

\*\* Alternative technologies have been added include ONP tonnages consumed in technologies using processes such as composting

- Figures are expressed as tonnes per year (tpy)

- Total newsprint recycled includes publishers' waste and old newspapers (abbreviated as ONP)

- A percentage of consumption consists of cores, end caps and wrappers

- Tonnages for post consumer recovery rate are calculated after publishers waste is deducted from consumption

- ONP tonnages from household collections normally vary from 30-95% of total paper collected

- Prepared by News Limited's Environmental Secretariat (02-92882234)
